9 REOPENING CERTAIN UNITED STATES CONSULATES

10 SEC. 121. (a) None of the funds made available under
11 this or any other Act for the "Administration of Foreign Af-

7 Human Rights provides for the right to freedom of ex-
8 pression and to “seek, receive and impart information
9 and ideas through any media regardless of frontiers”;

12 for the promotion of “the free flow of ideas by words
13 and images”;

14 (4) the signatories of the Final Act of the Confer-
15 ence on Security and Cooperation in Europe (Helsinki,
16 1975) pledged themselves to foster “freer flow and
17 wider dissemination of information of all kinds, to en-
18 courage cooperation in the field of information and the
19 exchange of information with other countries, and to
20 improve conditions under which journalists from one
21 participating State exercise their profession in another
22 participating State”; and

23 (5) government censorship, domination, or sup-
24 pression of a free press is a danger to free men and
25 women everywhere.

1 (b) Therefore, it is the sense of the Congress that the
2 United Nations Educational, Scientific, and Cultural Organi-
3 zation should cease efforts to attempt to regulate news con-

5 of the world press.

6 (c) The Congress opposes efforts by some countries to
7 control access to and dissemination of news.

8 (d) The President shall evaluate and, not later than six

13 tific, and Cultural Organization, and the extent to
14 which the programs and activities of that Organization,
15 serve the national interests of the United States;

16 (2) the programs and activities of the United Na-
17 tions Educational, Scientific, and Cultural Organiza-
18 tion, especially its programs and activities in the com-
19 munications sector; and

20 (3) the quality of United States participation in
21 the United Nations Educational, Scientific, and Cul-
22 tural Organization, including the quality of United
23 States diplomatic efforts with respect to that Organiza-
24 tion, the quality of United States representation in the
25 Secretariat of that Organization, and the quality of re-

1 cruitment of United States citizens to be employed by
2 that Organization.

3 Such report should include the President's recommendations
4 regarding any improvements which should be made in the
5 quality and substance of United States representation in the
6 United Nations Educational, Scientific, and Cultural Organi-
7 zation.

21 Cuban and Haitian entrants within the United States or
22 abroad for each of the fiscal years 1981 and 1982. Such
23 report shall include and set forth for each such fiscal year—

1 (1) the costs of assistance for resettlement of refu-
2 gees and Cuban and Haitian entrants within the
3 United States or abroad;

4 (2) the costs of United States contributions to for-
5 eign governments, international organizations, or other
6 agencies which are attributable to assistance for refu-
7 gees and Cuban and Haitian entrants;

8 (3) the costs of Federal, State, and local efforts

23 (2) the phrase “Cubans and Haitian entrants”
24 means Cuban and Haitians paroled into the United
25 States, pursuant to section 212(d)(5) of the Immigra-

1 tion and Nationality Act, during 1980 who have not
2 been given or denied refugee status under the Immi-
3 gration and Nationality Act.

4 SUPPORTING IMPLEMENTATION OF THE WORLD HEALTH
5 ORGANIZATION VOLUNTARY CODE ON INFANT FORMULA

6 SEC. 404. (a) The Congress finds that—

7 (1) there is overwhelming scientific evidence that
8 breastfeeding has substantial advantages for infant
9 health and growth, that it offers an uncontaminated
10 food supply, an early transfer of antibodies protective
11 against infectious diseases, and a naturally evolved and
12 tested nutritional source, and that it is an important
13 factor in bonding between mother and child;

14 (2) numerous studies, in a wide variety of devel-
15 oped and developing countries, over a long period of
16 time, have shown that artificial infant feeding is associ-
17 ated with higher rates of illness and death and, in poor
18 communities, with lessened growth and nutrition;

19 (3) the problem of unrefrigerated infant formula
20 prepared with polluted water and placed in inadequate-
21 ly cleaned bottles is further complicated by flies and
22 heat in tropical climates;

23 (4) one hundred million of the one hundred and
24 twenty-five million children in the world below the age
25 of one are born in developing countries;

1 (5) ten million of these one hundred million chil-
2 dren will probably not live until their first birthday;

3 (6) diarrhea and other infectious diseases, when
4 combined with the problems of malnutrition, account
5 for more than half of these deaths;

6 (7) the use of infant formula rather than breast-
7 feeding is estimated to account for up to a million of
8 these deaths per year; and

9 (8) at a recent meeting of the World Health Orga-
10 nization, the United States was the only country, in a
11 one hundred and eighteen to one vote, to vote against
12 a voluntary code to encourage breastfeeding and to
13 curb inappropriate marketing and advertising of infant
14 formula, particularly in the Third World.

15 (b) Therefore, the Congress—

16 (1) expresses its dismay at the negative vote cast
17 by the United States on May 21, 1981, at the Thirty-
18 Fourth World Health Assembly of the World Health
19 Organization on the "International Code of Marketing
20 of Breastmilk Substitutes";

21 (2) urges the administration to notify promptly the
22 World Health Organization that the Government of the
23 United States will cooperate fully with other nations in
24 implementation of that code;

1 (3) urges the United States infant formula indus-
2 try to abide by the guidelines of that code, particularly
3 with respect to exports and the activities of subsidiar-
4 ies in developing countries; and

5 (4) reaffirms the dedication of the United States to
6 the protection of the lives of all the world's children
7 and the support of the United States for efforts to im-
8 prove world health.
